

Powerful, Cost-effective Communications for the Future of your Business.

In the fast pace of business, you need to be mobile, nimble, and responsive to customers while fostering collaboration among your colleagues. Customer interaction with your company can be the difference between success and failure. However, many struggle with the challenges of improving overall communications and business efficiencies while battling restrictive budgets and facing limited technical competencies. Can you support the needs of today's workers with yesterday's technology?

Astound Hosted Voice is a fully managed cloud-based solution that is delivered over our fiber-rich network and offers advanced unified communications customized to fit your organization's specific needs. It offers intuitive features that help improve productivity while providing flexible, cost-effective pay-as-you-go features to fit any budget. Our Hosted Voice solution is completely scalable with unlimited nationwide calling, predictable monthly costs, and offers easily customized call and administration tools.

KEY BENEFITS

REDUCE COSTS

Our OPEX vs. CAPEX model is a less expensive solution than on premise solutions.

RELIABILITY

Our fiber-rich network ensures improved reliability and disaster recovery ability.

FULLY HOSTED SOLUTIONS

Rest easy knowing our team of experts are managing your phones with 24/7/365 local support.

SCALABILITY AND FLEXIBILITY

You may easily add phones for quick growth when necessary.
